

**Program: Data Science & Artificial Intelligence – SFPDA-UG**

I, Dalli Sankar, am currently pursuing B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning) and I am in my 3rd year at Anil Neerukonda Institute of Technology and Sciences (ANITS). I am writing this Statement of Purpose to express my strong interest in the Data Science and Artificial Intelligence – SFPDA-UG program.

As a Computer Science student specializing in AI & ML, I have developed a strong interest in data-driven technologies and intelligent systems. During my academic journey, I have studied core subjects related to programming, data structures, algorithms, machine learning fundamentals, and problem-solving techniques. These subjects helped me understand how data can be analyzed, processed, and transformed into meaningful insights to support decision-making.

I have practical knowledge of programming languages such as C, Python, Java, and SQL, which has enabled me to work with data, implement basic algorithms, and understand software development concepts. I am particularly interested in Data Science, as it combines statistics, programming, and domain knowledge to extract valuable information from large datasets. Similarly, Artificial Intelligence fascinates me because of its ability to enable machines to learn from data, identify patterns, and make intelligent predictions.

The SFPDA-UG program aligns well with my academic background and career goals. This program will help me strengthen my fundamentals in data analysis, machine learning, artificial intelligence, and real-world applications. The structured learning approach and focus on practical skills will prepare me to meet industry and government-level standards in emerging technologies.

My career goal is to secure a stable and skilled IT job, where I can apply my knowledge of Data Science and Artificial Intelligence to solve real-world problems and contribute to technological development. I believe this program will enhance my technical competence, improve my analytical thinking, and make me industry-ready.

I am a disciplined and motivated learner, and I am committed to continuously improving my technical skills. I am confident that enrolling in the Data Science & Artificial Intelligence – SFPDA-UG program will play a crucial role in shaping my professional career and helping me achieve my long-term goals.

Thank you for considering my application.

Sincerely,  
Dalli Sankar  
B.Tech CSE (AI & ML), 3rd Year  
ANITS
